

Course Code : CSE2067
Course Title : Web Technologies
Lab sheet 3 Programs for Module 1

Problem Statement: The Computer Science Engineering department is planning to organize a symposium. Symposium events are to be held with paper and project presentations, quizzes, etc. Students should register the interesting events. Assist the web page design team to create a registration form for the symposium using appropriate HTML tags.

The web page should have the following things:

1. The top of the page will display the symposium event Banner (including image and text) and other related information.
2. The Registration page will get the following details from the participants. Participant Name, Branch, college name, communication Address, E-mail id, mobile no, age, state, Gender, Events (Paper Presentation, Quiz, etc),etc.

HTML Tags used: <html> <head> <title> <body> <h1> <h2> <h3> <a> <form> <input> <textarea> <select> <option> <h4> <p> <center> <hr> <table> <tr> <th> <td>
 <button> <fieldset>

Expected Output:

PRESIDENCY UNIVERSITY
GAIN MORE KNOWLEDGE
REACH GREATER HEIGHTS

Symposium Event Registration
