

Course Code : CSE2067
Course Title : Web Technologies
Lab sheet 6
Programs for Module 2

Problem Statement : Mr. Arjun Student of Presidency University wants to create an attractive web page for Presidency University using HTML and CSS with following specifications.

- Split the web page into two parts using frames, top section 20% and bottom section 80%.
- Place your college logo at the top of the page with menu's (About, Academic, Admission, Feedback, etc). Create hyperlink for all menus.
- Create a web page about the college linked at the bottom of the frame.
- Create a web page about the Academic linked at the bottom of the frame.
- Create a web page about the admission, list out the departments, click any department name that connects to the registration page and apply the position concept in CSS.
- Create a web page about the Feedback, list out the feedback from parents and students.
- Create a web page about the login page linked at the bottom of the frame.
